

Exporting meet results for submission to USMS

Method 1: Export just the meet results

This method creates a ZIP file that contains two results files (one in CL2 format and the other in HY3 format).

Export Results

Selection Criteria

Team :

Region :

LMSC :

Gender

Both
 Male Only
 Female Only

Relays

Relays Plus Athletes
 Relays Without Athletes
 No Relays

Events

Standard Events

Choose "OK"

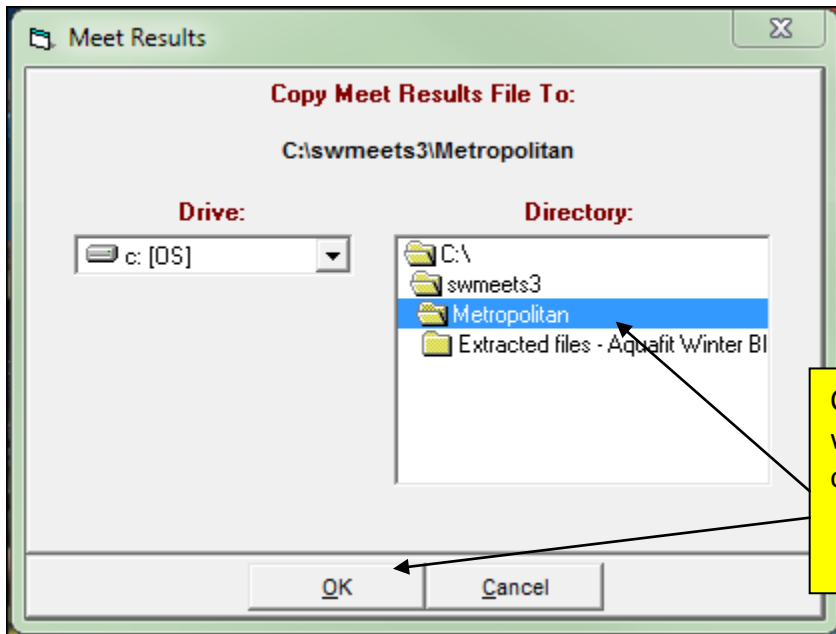

Export File Progress

Teams : 20
Athletes : 125
Entries : 426
Relays : 0
Relay Names : 0
Splits : 701

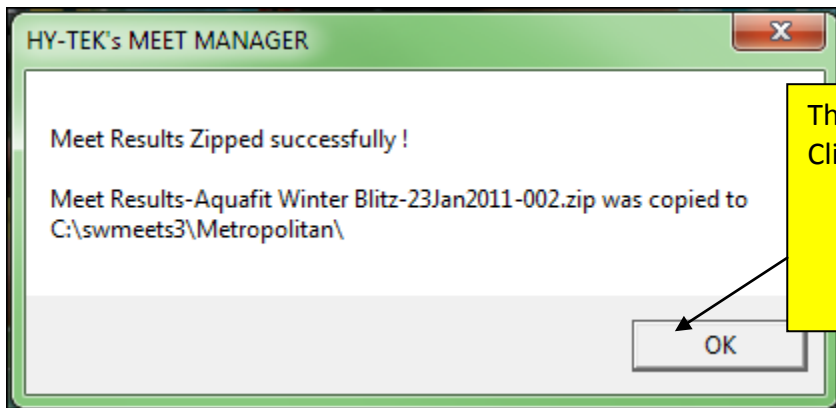

Elapsed Time : 2 seconds

Export Finished

This particular meet contained 20 teams and 125 swimmers. If that looks correct, click "OK"

Choose where you want to save the file on your computer

The file has been saved. Click "OK"

File name: Meet Results-Aquafit Winter Blitz-23Jan2011-002.zip

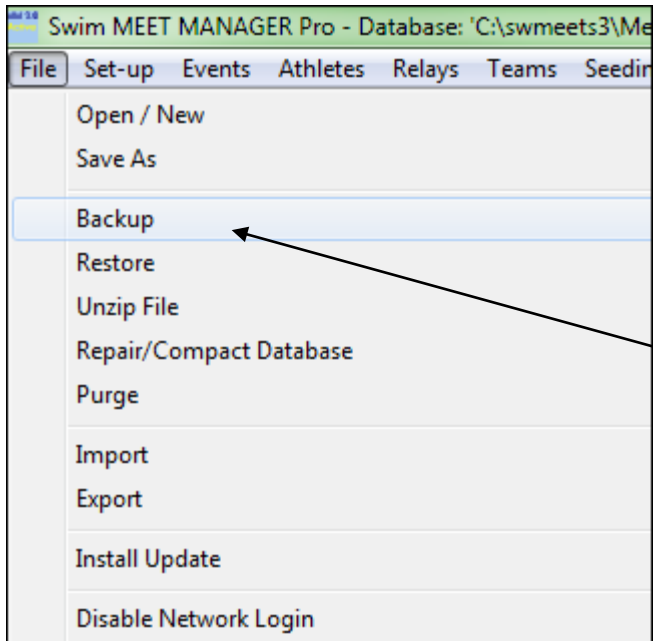

The file name begins with the words "Meet Results"

The meet name was "Aquafit Winter Blitz" and it was held on January 23, 2011

The file format is .ZIP, which is a compressed file format

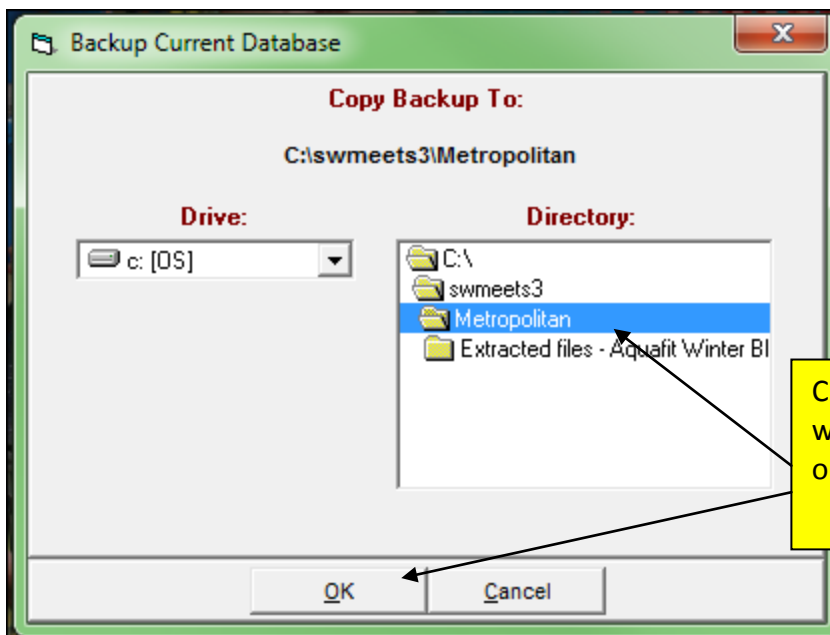

Method 2: Make a complete meet backup

This method creates a ZIP file that contains a full database file (in MDB format). This format cannot be uploaded directly to the USMS meet results database. But it can be opened by the Top10 Recorder if he has Hy-Tek's Meet Manager software.
