Go to www.usms.org, click on "Discussion Forums", you must have an ID as this is a private forum

2009 Fees

- A. There are no fees required to register your LMSC. However, your LMSC must maintain your LMSC records by having a current list of your LMSC officers placed into the Registration Application.
- B. The club registration fee is \$30.00.
- C. For swimmers registering from November 1, 2009 to August 31, 2009, the fee payable to USMS is \$25.00. The swimmer's registration expires on December 31, 2009.
- D. For swimmers registering (for 2009) from September 1, 2009, to December 31, 2009, the fee payable to USMS is reduced to \$20.00. (This is called an "End of Year" registration.) The swimmer's registration expires on December 31, 2009.
- E. For swimmers registering for one event, the fee payable to USMS is \$10.00. (LMSCs are not required to offer one-event registration.) Swimmers will not have access to perform this task via the Swimmer On Line Registration Interface Software.
- F. For swimmers converting from a one-event registration to a full 2009 membership, the fee payable to USMS is the difference of the full fee minus \$10.00 (in other words, it is \$20.00 until August 31st, 2009, and \$15.00 from September 1st, 2009 through October 31st 2009), and swimmers must convert within a month of the one event

registration. Swimmers will not have access to perform this task via the Swimmer On Line Registration Interface Software, the registrar must complete this conversion via the Club Assistant Registrar Interface Application.

- G. For swimmers transferring membership from one club to another, the fee payable to USMS is \$1.50. Swimmers will not have access to perform this task via the Swimmer On Line Registration Application, the registrar must complete this conversion via the Club Assistant Registrar Interface Software.

Registration Application

For 2009, registrations of swimmers and clubs will be implemented via a web based application provided by Club Assistant. There will be two different interfaces to Club Assistants Application, one for registrars and one for swimmers. The implementation of the Registrar Interface went live on November 5th, 2007, and the availability of the Swimmer Interface is to be determined.

- A. The On Line Application maintains registration of individuals (with member lists supported), clubs, and LMSC officers. Several options that customize the entering of registration data are available.
- B. The software generates and assigns a USMS ID number for each swimmer registered. The last five characters of the number comprise the swimmer's permanent ID number. The software will retrieve the permanent ID for any swimmer, nationwide, who has previously been assigned a permanent ID (to avoid generating a duplicate ID for that swimmer).
- C. The Application is a real time application with a database maintained by Club Assistant (every time a swimmer is registered, the information is available to every registrar and the USMS National Office). The Registrar Interface will generate reports of swimmer registrations and fees that can be selected by a range of dates and fee types. It also creates a summary report that details the fees collected.
- D. The summary report should be created at the end of the last day of the month by the registrar and given to the treasurer showing the funds owed to the National Office for each monthly period. The National Office will be accounting for those funds from the real time database during the same monthly period that closes at 11:59pm Pacific Time.
- E. Specific reports using individual option fields can be used to select individuals for rosters and mailing labels. Some of these fields can be included on the registration card or mailing labels
- F. The format of reports is user selectable, and the selections can be stored for future use. Reports can be saved to disk in a format that can be read by most word processors for merging with standard forms.
- G. The roster and label options include sorting on a number of criteria, including the optional fields. The labels can be sorted in bulk mailing order.
- H. The Registration Application will be able to handle one-event registrations and conversions.
- I. The Application accommodates USMS Foundation, ISHOF Foundation, and local donations and club fees if collected. LMSC and Club yearly fees can be specified and will be collected by the application. For Swimmer Interface entries, the Club and LMSC yearly fee will be returned to the LMSC on a monthly basis. It is the registrar's responsibility to notify the treasurer as to how to distribute club fees and local donations or merchandise (should they be collected) based on the monthly report of those fees generated from the application.
- H. Check-off boxes for coaches, opt out for email, magazine, and sponsor postal mailings, the USMS magazine, and officials exist in the application.
- I. For unique questions for LMSCs (such as local newsletter distribution), fields exist for customization by the registrar so that the questions may be available for the Swimmer Interface Application and/or additional fields just for the registrar.
- J. For those LMSCs that have clubs with associated Workout groups, the Application allows selection of the Workout group. The application will not allow collection of any fees to be collected for Workout groups.

LMSC and Club Registration Procedure

LMSC Registration:

- A. Register the LMSC each year by December 31 by entering the current officer for your LMSC in the Registrar Interface Application. Please keep this list current, as there is no longer a requirement to pay a yearly LMSC registration fee, and the officers need to be current for USMS National Office contacts.
- B. The official name and number of each LMSC is listed in the USMS Rule Book, and should be used in contacts with athletes and the National Office. Only the House of Delegates has the authority to change the name of an LMSC.

Club Registration:

- A. **Existing clubs** should re-register each year before any swimmer can register for the current year with the club. It is strongly suggested that each club register by November 1st of each year so new members can register on line with the club. The club should complete a *Club Registration Form* (suggested form on page 13 of this section of the handbook) and returning it to the LMSC registrar. Please note that the location of the team's pool is requested, to facilitate inquiries at the National Office regarding locations. Once the club registration form and check is received, the LMSC registrar should enter it for the new year on or after November 1st via the Registrar Interface Application.

NOTE: A club **must** be registered before individual swimmers can be registered with that club. If a swimmer wishes to compete but his/her club has not yet registered, the registration must be submitted as "unattached." The On Line Registration System will not list the club for the current year unless it has been registered by the registrar via the Registration Software. Clubs are encouraged to renew prior to November 1st of each year so new members can register starting November 1st.

- B. **New clubs** may register at any time by completing the *Club Membership Application* and submitting it to the LMSC registrar. Make certain the three to four letter abbreviation selected by a new club is not already being used by referring to the list of club abbreviations (at the end of this section), and by confirming the abbreviation with the National Office. Once the verification has been completed, the registrar must enter the information into the Registration Application .
- C. A club's number is **XXY-ZZZ**:
XX=LMSC number
Y=Last digit of year
ZZZ=Club number

Example: Club XYZ had the number XX7-015 in 2007. Club XYZ will have the number XX8-015 in 2008. A club number of "XXY-000" is used to indicate "Unattached."

Clubs maintain the same number and letter abbreviations from year to year. If a club goes "dormant," its number should NOT be re-assigned to a different club. If the club "resurfaces" and re-registers at a later date, it should be re-assigned its original club number. [NOTE: this is a new philosophy for USMS. It is intended to aid the processing of Top Ten.]

- D. To facilitate those areas having large clubs with multiple workout groups, the registration software will allow the registrar to enter workout groups for a single USMS registered club.

Swimmer Registration Procedure (Annual Memberships)

New Registrations:

- A. Register a swimmer by choosing Registration >> Enter the name in the Search Box and select the year >> Choose the appropriate swimmer once Search has completed, and enter appropriate fees and donations and click the "Done" button.

U. S. Masters Swimming

- B. The USMS registration software will assign a registration number to each swimmer. An individual's registration number consists of the two-digit LMSC number, the last digit of the registration year, an additional character, a hyphen, and another five characters. ("Character" means alphanumeric.)

Example: XXYA-BCDEF
 XX=LMSC number
 Y=Last digit of year (2003=3)
 A=variable character
 BCDEF=alphanumeric characters; this sequence of five characters is the swimmer's permanent ID and will not change from year to year.

- C. Review the swimmer's 2009 *One Year Membership Application* form (pages 10 and 11 of this section of the handbook) for accuracy, making sure that the liability release is properly signed. Distribute registration cards (see page 4 of this section of the handbook) to swimmers as soon as is practical.
- D. Registration cards print out automatically on your computer's printer from a pdf formatted file created by the Registration Application. If card are lost, they are easily printed again by selecting the member and a new pdf file is created. If you have a need to type a registration card, please do so as follows:
1. **DO NOT HANDWRITE CARDS.** Type cards in a uniform manner.
 2. **USMS number:** XXYA-BCDEF, as described above.
 3. **Club number:** Type as club number-club abbreviation. The LMSC number is not necessary. Example: 1-MOVY. Include *both* number and abbreviation.
 4. **Name:** Type last name first, then first name, then middle initial. Put titles or Jr or Sr in the APP field. Typing 2nd, 3rd or 4th is easier to interpret than Roman numerals.
 5. **Address:** Be sure to include apartment number, if any. Where possible use Apt, Unit, or Suite instead of the # sign. If you must use the latter, make sure there is a space both before and after so the post office OCR systems can interpret it. Do not use periods or commas; hyphens are fine.
 6. **USPS Standardized Address:** You can view the proper format for any address by going to the US Postal Service web site: www.usps.com. Click on "Find a ZIP Code."
 7. All dates must be typed as MM/DD/YY. Example: 7/4/08 or 12/31/08. Do NOT use 4-JUL-08 or DEC 31, 2009.

Re-Registrations:

Follow the same menu picks as described above for registering a new swimmer. When you get to the swimmer registration screen, you can enter the swimmer's permanent ID number. This should pull up his or her data (name, address, etc.) from the last time he or she registered.

Transfers:

- A. A swimmer must wait 60 days after competing for one club before affiliating with a new club, except at the time of annual renewal. Transfer fees do not apply to swimmers who change club affiliation at the time of renewal.
- B. A swimmer must complete an *Application for Transfer of Club Membership* form (page 14 of this section of the handbook) and submit it to the registrar of the LMSC in which the new club is located (may be the same LMSC).
- C. The registration Application will include appropriate transfer fee with their registration summary for payment to the national registrar.
- D. If a swimmer has transferred to another LMSC, the real time Registration Database will automatically have the swimmer's association with the new LMSC listed at the time of transfer. Printing of reports for your LMSC will no longer list the swimmer who has transferred out of your LMSC.

Tryout Period:

Unregistered swimmers may have a tryout period with a club. The tryout period must not exceed 30 consecutive days in any 12-month period, during which time the swimmer may participate in *swim practices only*. (An unregistered swimmer may separately participate in a single event via one-event registration if the LMSC supports this optional program. See the One-Event Registration Procedure section following.)

To maintain USMS insurance coverage (which covers registered members only), each tryout swimmer must fill out the standard membership application form. The coach or contact person should make sure that the liability release is properly signed, write “30 Day Tryout” in the margin, and retain the form for the 30-day period. When the swimmer elects to join USMS, it is then a simple matter to cross out the annotation, attach the check, and forward the application to the local registrar.

Swimmer Registration Procedure (One-Event registrations)

Policy:

One-event registration is an optional policy that an LMSC may use to register swimmers for a one-time-only event, such as a swim clinic, a meet, or an open water swim. (An event that spans consecutive days, such as a two-day swim meet, counts as “one event.”) USMS strongly encourages LMSCs to follow up with one-event registrants to encourage them to join USMS. USMS encourages conversions to full membership within a month of the event. One-event registration will be a paper process and the LMSC registrar must input the information manually into the Registration System.

Swimmer requirements:

Swimmers must sign and date the *One-Event USMS Registration Application* (page 12 of this section of the handbook), which must include the liability release and the swimmer’s name, address, and date of birth. A check for **\$10.00**, plus additional LMSC fees (if applicable) must accompany the application.

Event director:

A one-event swimmer may not represent any club and must be listed as “OEVT” on the heat sheet and in results. Use the *One-Event USMS Registration Application* or add the words “One Event” to standard membership applications. Event directors should forward applications to the LMSC registrar.

LMSC registrar:

- A. Keep a *separate* file of one-event registration applications for 6 years.
- B. The Registrar Application will assign a special one-event registration number to each swimmer. For the registration date, use the date of the event in which the one-event swimmer participated (use the *first day’s* date if the event spanned more than one day).
- C. A one-event swimmer converting to a full membership may only do so within the same membership year. In other words, a swimmer could not register with a one-event membership in October, 2008, and convert that to a full membership in November, 2009, at the reduced (offset) cost for a 2009 membership.

LMSC responsibilities:

Each one-event registrant should be provided with a packet of information to highlight the benefits of joining USMS. Included in the packet may be any of the following:

- A. Informational brochure from USMS and any material describing the LMSC’s activities (e.g., a sample newsletter or local brochure).
- B. A membership reduction coupon to be used toward offsetting the annual cost to USMS. The membership coupon would be valid for only 30 days after the date of registration, which will be indicated on the coupon by the meet

director. The value of this coupon will be determined by each individual LMSC and redeemable only in the LMSC of issue.

C. Registration form for that particular LMSC for full membership.

See *Marketing and Public Relations* section of this handbook for additional one-event marketing suggestions.

Monthly Submission to National Office

There are no longer submissions to the National Office: For paper registrations, the LMSC registrar must have entered the new and renewal registrations into the Registrar Interface of the On Line System by the following dates for magazine subscription cutoffs.

Each registrar should strive to enter as many registrations as received by the month end cutoff for the update to the National Office. Note December 31st year end close out, paper registrations in your possession must be entered as required by controller for financial year end accounting.

Date Due	Deadline to Receive USMS Magazine
November 30, 2008	January/February 2009 Issue , month end summary
December 31, 2008	2008 Year End Close Out, Year end summary
January 31, 2009	March/April 2009 Issue, month end summary
February 29, 2009	Month end registration summary
March 31, 2009	May/June 2009 Issue, month end summary
April 30, 2009	Month end registration summary
May 31, 2009	July/August 2009 issue, month end summary
June 30, 2009	Month end registration summary
July 31, 2009	September/October 2009 Issue, month end summary
August 31, 2009	Month end registration summary
September 30, 2009	November/December 2009 Issue, month end summary
October 31, 2009	Month end registration summary
November 30, 2009	January/February 2010 Issue, month end summary

Foundation donations:

Swimmers may designate on their registration forms a donation of \$1 (or more) to the USMS Foundation or the International Swimming Hall of Fame (ISHOF). The donations will automatically be tallied by the Application in the registration summary.

USMS Magazine:

The USMS national magazine is included with all USMS annual registrations. If a swimmer requests not to receive the magazine, there is a field in the application to exclude the magazine. In the member form screen, click "Exclude USMS Swimmer Magazine". There is *no* discount if a swimmer does not want the magazine.

Additional mailings and emails:

Some swimmers may request that their name not be included on miscellaneous mailing lists. There are fields in the Registrar Application to address these exclusions. Check the appropriate box.

Common Errors

Please take special care to avoid the following common processing errors:

U. S. Masters Swimming

- A. The Registration Software absolutely *cannot* accept a swimmer's registration if the birthdate has not been provided.
- B. Birthdates must be accurate. *Please make every effort to obtain the correct birthdate* before submission to the Registration system. DO NOT "INVENT" BIRTHDATES!
- C. Swimmers must be at least 18 years of age.
- D. The Registration Application CANNOT accept the registration of a swimmer attached to an unregistered club. The LMSC registrar should hold registrations of individuals until their club has registered for the current year. If a swimmer wishes to compete but his/her club has not yet registered, the registration must be submitted as "unattached." The swimmer can then transfer (paying all applicable fees) once the club has registered. (The Registration Application will not allow a swimmer to register with a club that is not yet registered.)
- E. In addition to notifying the National Office of changes to swimmers' information, please be certain to update changes to club and LMSC officers throughout the year.
- F. Common errors on cards not produced include:
 - 1. Omitting club number or club abbreviation.
 - 2. Not printing name with last name first.
- G. Additional information, such as the name of workout groups, should appear on the right-side fold of the registration card set.
- H. The Club Assistant Application has backup procedures in place for data entered into the system. As a registrar, if you use other software to record checks received, you are encouraged to back up his/her data on a routine basis!
- I. Every Registrar is also STRONGLY encouraged to have a "disaster plan" on file with someone in the LMSC. This is suggested so that if the registrar is somehow incapacitated, the LMSC designee will be able to locate the hard copies of the registration forms, as well as continue the registration process.

Other Important Responsibilities of the LMSC Registrar

from the Management of Corporate Documents section of the LMSC Handbook

Registration/Membership Forms

- 1. Save original forms with signed liability releases for a minimum of six (6) years to be safe (actual statute of limitations for filing a personal injury or wrongful death or other related lawsuit varies from state to state and will affect storage time)
- 2. Save a year end registration membership list along with the saved original signed liability release forms

Hard copy reports/lists and electronic reports/lists

- 1. Archive old registration lists (both physical hard copies and electronic file lists) in a secure location with backup copies in a separate location from the registration program location
- 2. Store current registration lists and electronic file lists and monthly or periodic updates for the registration year in two secure locations, one of which is separate from the location of the registration program

USMS membership information

- 1. Membership information which should not be posted in an accessible areas include birthdates, addresses, telephone numbers, and E-mail addresses due to privacy requirements and identity theft concerns
- 2. Partial membership information could be posted in a secure or password protected location for use by meet directors or the LMSC top ten recorder to verify names as listed on USMS card, membership numbers, birthdates, and gender.
- 3. To protect the confidentiality of members' USMS registration information, this information may only be disclosed for official USMS and/or LMSC business relating to the conduct of Masters swimming. Examples of legitimate reasons for disclosure include: A member's name, birth date, age, club, ID number and gender may be given to a

meet director for uses related to competition, or to the Top 10 and Records Chair. Information concerning members of a club may be given to the designated representative of that club.

LMSC contact information

1. Obtain permission of LMSC officers before posting contact information on the LMSC web site or before transmitting it to the USMS National Office for posting on the USMS web site
2. Consider listing “encrypted” or partially disguised e-mail addresses on the LMSC web site to deter E-mail address harvesting programs
 - a. use (AT) instead of “@” when listing address
 - b. use (DOT) instead of “.” when listing address
 - c. other ways to disguise or encrypt addresses

SWIMMER REGISTRATION FORMS

The contents of the forms on the following pages are suggested only, and may be modified* by the LMSCs for their local use:

- **2008 One Year Membership Application (Full Page) ~ Page 10**
- **2008 One Year Membership Application (1/2 Page) ~ Page 11**
- **2008 One Event Swimmer Registration ~ Page 12**
- **2008 Club Membership Application ~ Page 13**
- **2008 Application for Transfer of Club Membership ~ Page 14**

***NOTE** that the waiver statement on the registration forms MAY NOT be modified. Refer to Article 203 of the USMS Rule Book.
