

Minutes of the North Texas Local Masters Swim Committee

The Annual Meeting of the North Texas LMSC was held at the Robson & Lindley Aquatic Center and Barr-McMillion Natatorium in Dallas, Texas on Saturday, December 8, 2018. The meeting was called to order at 2:10 p.m. CST.

- I. Roll Call – The following officers were in attendance: Richard Garza, Chair; Carlos Rodriguez, Vice Chair; Dave Young, Registrar; Michael Doyle, Treasurer; Kim Shaw, Secretary; Cindy Myer, Fitness Chair; Laurie Dunlap, Sanctions; Tom Osterland, Officials; and Bob Tierney, Webmaster. The following team representatives were also present: Sandy Thatcher and Erin Roehrig (TFAM); Gilberto Junior (O2); Floyd McDaniel and Lynn Morrison (NTXL); and Damien Zuniga. We were also joined by Bruce Rollins (GULF LMSC), South Central Zone Chair and member of the LMSC Development Committee.
- II. Review and approve minutes from meeting on June 2, 2018. Minutes have been on the LMSC website and were approved.
- III. Reports of Officers and Zone Chair Comments
 - Richard Garza gave the Chair's report.
 - The LMSC Bylaws were rewritten at the start of the year.
 - Bids for zone meets are due as soon as possible.
 - Consider creating service awards.
 - Cindy Myer, our Fitness Coordinator, won the Fitness Award which was presented at the national convention.
 - Training Course Fee Reimbursements and Accountability – in 2017, the LMSC paid the course fee for 30 people to attend Adult Learn to Swim training and Coaches Level I & II training. It is unclear how these payments have provided a benefit to the membership. After discussion among the committee, a decision was made to continue to reimburse the course fee for participants in the Coaches training, but only reimburse half the cost of the ALTS training. The participant will have an opportunity to earn reimbursement of the other half of the course fee by conducting a clinic in the LMSC. The next local ALTS training class will be on February 25, 2019 in Frisco, Texas.
 - Carlos Rodriguez reported on the peer-to-peer calls in which he participated.
 - Recognition and awards. We need to try to recognize people who volunteer, but first we need to develop ideas for how we want to recognize people and for what.
 - One of the attendees believed that we communicate to our membership about meets, but not about what is involved in putting one together. We tend to focus on the swims, but not the organization.
 - During the call it was suggested that LMSC meetings be tied to an event (like a meet) in order to attract more people.

- Coaches. There was a lot of discussion about dryland workouts. There is a video and content on the website. Coaches might provide guidance and/or references to available programs. Look for programs by swimmers. There is a yoga for swimmers website. Richard suggested putting available content on our website.
 - Do we want to host a clinic? We need a volunteer to organize it.
- Bruce Rollins commented on the items raised by Richard and Carlos.
 - He would like to receive zone meet bids by end of year.
 - Existing awards: South Central Zone has Jesse Coon Volunteer Spirit Award. (Our registrar, Dave Young, won in 2009.) The LMSC submits the nomination. Gulf LMSC created the Emmett Hines Service Award. College Club Swimming has a relationship with USMS which is administered through the National Office
 - Bruce mentioned that beginning in 2019, a sanction can be revoked prior to the end of a meet. That lead to a discussion regarding who has the authority to make such a revocation and what the procedure would be. Check the new rule book when it comes out.
 - Regarding volunteers, it is important to assign them a task. Example: assign people to recruit timers or organize a social. Reach out to the bigger teams.
 - April is Adult Learn to Swim (ALTS) month.
- Michael Doyle gave the Treasurer report and distributed financial statements.
 - LMSC has made a little over \$1,300 so far in 2018, even though membership was down. Revenue is ahead of last year. The LMSC still has adequate assets to meet its goals.
 - At the last meeting, Michael requested and received the group's permission to seek a higher interest rate on the CD at another bank. Amegy Bank has free checking with interest that is paying more than the CD so the group granted permission for him to move the LMSC account bank account. The Chair needs to be included as a signatory on the account.
- Dave Young gave the Registrar report.
 - The number of registered swimmers has declined since this time last year (954 vs. 1109).
 - 210 swimmers have registered for 2019.
 - Not all clubs have re-registered so their swimmers are not yet considered re-registered.
- Kim Shaw gave the Secretary report.
 - The minutes of the LMSC meeting on June 8, 2018 were reviewed and approved.
 - Kim attended the convention in September and gave a brief overview of what she observed. Attached to these minutes is a copy of her notes.
- Cindy Myer gave the Fitness report.
 - Cindy humbly acknowledged receipt of her National Fitness award.
 - She mentioned that SmartyPants is sponsoring fitness events again this year. This winter will include the 30-minute swim.
 - Regarding the Go-the-Distance program, Cindy suggested revising the team award calculation. Rather than basing the cash award on the average distance per team member, awards will be determined based on total miles by the team. She will provide some data so we can determine the appropriate dollar amount per mile.
- Laurie Dunlap gave the Sanctions report.

- Five sanctions were issued this year: 3 to Texas Ford Aquatics and 2 to Dallas Aquatic Masters. They are the only two clubs in the LMSC who host meets.
- Elaine Disney was unable to attend the meeting and present the Top Ten report in person; however, she provided a spreadsheet that is attached to these minutes and contains the following:
 - 2018 North Texas LMSC SCM Overall Times (All Entries tab) – for each age group it shows the fastest time swum by a North Texas swimmer during the period 2002-2018
 - 2018 North Texas LMSC SCM Overall Top Ten (Top Ten tab) – for each age group it shows the top ten times swum by North Texas swimmers during the period from 2002-2015
- Bob Tierney, Webmaster, reported on the status of the new website.
 - He has been working on a new version of the website on WordPress that will make it easier to transition to a new user and allow others (besides Bob) to enter information.
 - Committee members will receive a link to a content viewer. Provide Bob with feedback.
 - Website should be ready to go live on January 1, 2019.
 - It will be slower.
- Tom Osterland provided the Officials report.
 - Tom has been an official for 24 years. The time has come to train the next generation of officials. We need to “grow our own” – train people to be USMS officials.
 - Recruit volunteers from each club and train them. Consider family members and swimmers.
 - Tests are online, not difficult. Trainees need to shadow existing officials.
 - Consider paying officials and definitely feed them. (Timers too.)

IV. Old Business – addressed in the officer reports.

V. New Business

- a. LMSC Summit – March 1-3. Who shall we send? Need to decide by January
- b. Winter Sprinter Meet at Texas Ford Aquatics on January 26.
- c. Find videos for website
- d. Swim clinics – Carlos and Cindy will develop a clinic for February.
- e. Zone meets – we need to get pools in our area up to speed so they can bid for meets

VI. Resolutions and Order

- a. Resolved to accept all officer reports, including minutes from the last meeting.
- b. Resolved to approve the opening of a new checking account at Amegy Bank and transfer all LMSC funds to the new account.
- c. Next meeting will be immediately following the DAM meet on February 23, 2019. Bring someone who might become a volunteer.

VII. Adjournment – The meeting was adjourned at 4:22 p.m. CST.

Attachments: Kim Shaw's convention notes; Elaine Disney's spreadsheet

NOTES ON THE USAS NATIONAL CONVENTION

I attended the United States Aquatic Sports national convention in Jacksonville, Florida on September 26-30, 2018. I was a delegate representing the North Texas LMSC along with Sandy Thatcher. Our Chair, Richard Garza, attended in his capacity as Chair of the Legislation Committee. I had previously attended 10 conventions from 1990 through 1999, so I was eager to see how it had changed. I discovered that while the overall format remained the same, the meetings were more efficient and productive. Generally, the committee meetings were recaps of the work that had been done throughout the year along with a discussion of what to present to the House of Delegates (HOD). Minutes were uploaded to the website in a timely manner so delegates could read them prior to HOD meetings. As a result, the HOD meetings ran quickly. This allowed more time for workshops that provided interesting information to those in attendance.

I will not repeat anything noted by Sandy in his notes, although I may add a point or two. We purposefully avoided attending the same meetings in order to cover as many as possible.

House of Delegates

In the first **HOD** session, members of the Executive Committee gave an overview of what would be discussed at convention. The theme was “Building Bridges to our Future”. The average age of masters swimmers is 50 and the largest age group is 45-59. USMS is actively pursuing younger swimmers and supported the development of an organization called College Club Swimming. This was news to me, so forgive me if it is old news. There are currently 126 clubs with over 4500 swimmers. Those are potential masters swimmers when they finish college. Only clubs register with USMS. CCS unifies college club swim programs across the country. These clubs are separate from varsity athletic programs. The Executive Committee established a Volunteers Task Force to “investigate and make recommendations regarding how to optimize USMS’s volunteers as resources now and in the future.”

During the second **HOD** session, chairs of the rules and legislation committees (including our esteemed colleague, Richard Garza), presented proposed changes that were controversial and would likely be pulled for discussion prior to a vote.

During the third **HOD** session, the rules and legislation proposals were put to a vote. The rule proposal to change the way ages are determined for relays was defeated. Legislation changes to reflect College Club Swimming were adopted. Some committee reports were presented followed by the presentation of awards. Our own Cindy Myer won the Fitness Award.

The fourth and fifth **HOD** sessions involved the remaining committee reports, approval of the budget with a deficit for 2019, and the election of At-Large Directors for each zone. The winners of the contested races reflected the theme of the convention.

Committees

I was going to provide a link to the **South Central Zone Committee** minutes, but as of the date of this report, they aren’t on the USMS website. In addition to Sandy’s comments, I noted that our Chair, Bruce Rollins, suggested that LMSCs consider creating awards, like spirit awards or volunteer recognition. Gulf and South Texas have some. He would like to see more open water events in the zone like the Tallchief

Open Water Challenge near Tulsa in September. Lynn Morrison, former North Texas LMSC Chair, suggested before convention that zone meets be required to include all relay events. Bruce said he didn't want to dictate to meet hosts who have a better sense of the time available at facilities and from officials and volunteers. He suggested a relay-only meet as an alternative. Finally, everyone was reminded that the onus is on the swimmer to get on the zone top ten list.

At the meeting of the **Recognition and Awards Committee** the members recapped the awards already given or selected during the year. The action item was to change policy and stop presenting the Ransom Arthur Award at the spring national meet and do something near the recipient. Consider presenting other awards, like coach or club of the year, at the national meet. Several members believed that the standards for the International Masters Hall of Fame had been lowered and USMS has sent them a report on the subject. Nancy Ridout, former USMS President and current committee member, questioned why Texas received so many nominations this year. (Three clubs in our zone were nominated.) I was the only person in the room from Texas and I didn't know the answer. Nobody else spoke up. There is a Volunteer Recognition Store with items that can be used to reward volunteers. It can be found on a link attached to this page: <https://www.usms.org/admin/awards/>, but I'm not sure it's a secure page. Finally, #usmsvolunteer buttons were developed for the convention and distributed. The buttons were made to promote recognition and appreciation of volunteers by using the hashtag #usmsvolunteer for posts to social media like Instagram, Facebook, and Twitter. Stories and photos can use the hashtag.

Most of the **Fitness Education Committee** meeting was spent discussing the SmartyPants Vitamins USMS Fitness Series. There were 3 events that each ran for two weeks: 30-minute swim in February, 2K swim in July, and 1-mile swim in November. Members described whether and how they participated and the results. The reviews were mixed. Some clubs tied the events to a fundraiser, but not all agreed that boosted participation. The goal was supposed to be fun, and if it brought people into USMS, that was a bonus. One issue was distance. For many masters, the distance was shorter than a work-out. So, why pay? There were no "results". That was intentional because it was a fitness event rather than a competition. Some thought the two-week window was too narrow. One person suggested that the technology upgrade being developed by USMS should include analytics to compare a swimmer's progress (or decline) to other swimmers of the same age and gender. Most agreed that the success of fitness events is tied to the commitment and enthusiasm of the coach or the fundraiser.

The **Registration Committee** is experiencing an identity crisis. The need for the committee, its purpose, and the role of registrars will likely change. Dawson Hughes stopped in and said that registration cards will be available on apple or android wallets very soon. 20,000 swimmers still request printed cards. The national office might take over that task with the goal of eliminating printed cards. Registrars are still needed, but the role will be redefined. I learned of the existence of workout groups which have been around for at least 5 years (subset of club). Coaches must be certified to be listed as a coach in the database.

The **LMS Development Committee** is the group that sent out the standards and conducted the survey to determine if they are being met. They plan to publish results beginning in 2019, so we want to be in compliance. The mandatory standard missed most often is having someone other than the treasurer conduct the bank reconciliation. The target standard missed most often is not having a description of officer roles. This group also hosts the peer-to-peer teleconferences. The goal is 8-10 per year on the

second Tuesday of each month. The December call will be on enhancing local meets. They mentioned a leadership summit in March. In 2019 they plan to develop resources and training for LMSC leaders.

Workshops

Star System for Volunteers –

See Sandy's notes. The problem is that people get on a committee and don't get off, especially if a delegate slot is attached. But nobody wants to kick someone with knowledge and experience off of a committee.

How to Make Sure Your Times Count for Top Ten and Records

After I scribbled 3 pages of notes I learned that the presentation is on the website at:

<https://www.usms.org/~rectabs/convention/2009howtогettimestocount.pdf>. Also, if there is any discrepancy between this and the rule book, the rule book is always right. The list of measured pools is in the Guide to Operations. Swimmers, if you think you set a record, get documentation before you leave the pool. Or, make sure you know who is responsible for submitting the record and follow up.

Digital Transformation – USMS 3.0

Phase 1 was the new, member-focused website that fits on any device and a streamlined registration process through a secure, cloud-hosted site. We're in Phase 2. There will be a template for an LMSC website by the end of the year. There will also be email management and "community" (member-only content.) Community will have workouts, fitness tracking, member profile, badging (accomplishments), club and event reviews, articles, commenting, dedicated volunteer areas, and dedicated Board of Director areas. Phase 3 will be Customer Relationship Management. Customers are members, clubs, coaches, event directors, volunteers, and sponsors. CRM manages business functions: registration and renewal, national sponsor solicitation, ALTS instructor certifications, club management, event sanction process, member support, club/coach solicitation, and financial input.

USMS Officials Certification – Where We've Been and Where We're Going!

USMS started a national certification program in 2016. Stage 1 is for starters and stroke & turn judges. Stage 2 is for referees. The process includes videos and a test. Eventually, tests will be on the website. We need to "grow our own". Recruit USMS members. Athletes can compete and officiate in a meet. Recruit USA officials whose kids are out of school. We want officials familiar with USMS culture and who will enforce rules. We don't want understaffed meets. Tests are not difficult. Appendix B of the USMS rulebook explains the differences between USMS rules and other governing bodies.
