

PROCEDURES FOR UPDATING THE LIST OF USMS POOL MEASUREMENTS

Each LMSC will maintain a file of the Pool Length Certification Forms for all measured pools within their jurisdiction.

A composite single file listing all measured pools will be built from information submitted by each LMSC and shall be maintained by the Records and Tabulations Committee.

Any new or re-measured pool shall be forwarded to the designated person on the R & T Committee.

The information needed will include:

Course – SCY or SCM or LCM

LMSC

State

Pool Name – Include details if more than 1 pool at designated location
(KCAC scoreboard end vs KCAC dive tank end)

Town

Bulkhead – Yes or No

Lane #s measured

Date Measured

Measurement Method – Steel Tape, Laser

Measured by USMS or USA

On File with USMS Records Administrator – Yes or No (to be filled in by USMS Records
Administrator)

Approved for “NO PADS” – Yes or No

Approved for “1 PAD” – Yes or No

Approved for “2 PADS” – Yes or No

(what else???)

This composite single file will be posted on the Records and Tabulation Web site for viewing by ALL. (great tool for the swimmer as well as the LMSC Top10 person)
