

Editing an incorrect time for a swim

Occasionally someone will find an error in the meet results that you have uploaded to the USMS meet results database. You can correct errors in a swimmer's times if you know what the correct time should be. Usually you will need to contact the meet director and he will check the handwritten timer sheets from the meet.

In this example, Thomas Maine's 500 Free time from the Blue Wave Raiders SCY meet is incorrect, probably due to a faulty touchpad. The time in the meet results is 8:08.77, but the final split is missing. After contacting the meet director, we have determined that the correct time should be 9:00.95.

To correct the time, log in to the Meet Results tools at: <http://www.usms.org/usmsadmin/>
