Other USMS members present: Chad Steed Michigan LMSC Chair, Ken Mammo Michigan LMSC referee, Patrick Weiss Michigan LMSC Top 10.

Minutes

The meeting was called to order at 8:00 PM EDT

- 1) At the recent meet in the Michigan LMSC on 12/22/24 we received a bulkhead measurement form that had 1 measurement out of 9 too short and the committee is looking into what happened. The middle lane initial and final measurement were consistent and met the standards, but the middle measurement did not.
 - 2) We would like to accept the meet results but would have to disqualify the meet if the pool is too short.
 - 3) Ken observed the measurements at the end of meet. The laser was difficult to place due to the height of the bulkhead and deck. The meet director did the measurement and a student recorded it. Ken also stated that he was stroke and turn judge on the bulkhead and that the bulkhead never shifted. The lane lines were not adjusted from before the first measurements until after the last measurements were taken.
 - 4) It doesn't appear that the break was long enough to require the middle measurements.
 - 5) The recommendation was to accept the meet and encourage everyone to check the measurements against the standards immediately after the measurements are done.
 - 6) The meeting was adjourned at 8:18.
