Small Print Items that USMS makes us put on entries.

- The length of the competition course without a bulkhead is in compliance and on file with USMS in accordance with articles 105.1.7 and 107.2.1
- The primary timing system will be semi-automated with a sound device at the start and swimmer touching the wall at the finish with the time recorded on a scoreboard by a Dolphin timing system. Per 103.18.6 Records and Top 10 Times Using a Semiautomatic Primary Timing System—Semiautomatic times are used to determine the official time as follows (or backup times when the semiautomatic primary timing system fails), provided the procedures in article 103.17.3B are followed.
 - USMS Top 10 times may be established when timed by a minimum two-button semiautomatic primary timing system and the times are reported by three, two, or one valid button times.
 - USMS Top 10 times may be established when the minimum two-button semiautomatic primary system fails (no valid button times) if the times are reported by a manual backup system with three, two, or one valid watch times.
 - USMS records shall not be established using a semiautomatic primary system or a manual backup system when the primary system fails.
 - An initial distance or relay leadoff leg may be used to establish USMS Top 10 times when the times are reported by a manual backup timing system with a minimum of two valid watch times.
- Times from this competition will be eligible for USMS Top 10 consideration, but not for world or USMS records
