

USMS COVID-19 Safety Plan Addendum (Phase 3)

Until directed otherwise, all sanctioned events must complete this COVID-19 Safety Plan Addendum and email it to their LSMC sanctions chair in addition to completing the [standard sanction application on usms.org](#). Please copy events@usmastersswimming.org on correspondence so the National Office can gather comprehensive best practices and assist as needed.

Guidance and Recommendations

Event Directors

- The event director is responsible for researching and abiding by all current applicable federal, state, local, and facility orders related to COVID-19, clearly communicating protocols in published event information, and providing email updates to attendees as needed.
- Per [CDC guidance](#) (updated July 28, 2021), at indoor facilities in [areas with substantial or high COVID-19 transmission levels](#), it is recommended that both vaccinated and unvaccinated attendees wear a mask covering the nose and mouth at all times except while swimming.
- Limit spectators and nonessential attendees.
- Limit bathroom access (swimmers arrive and leave in their suits).
- Limit hospitality (attendees should bring snacks, water, etc.). If food or drinks need to be provided, use individually wrapped or sealed containers in a grab and go setting.
- Space out seating areas and preassign to groups or individuals if possible. Encourage swimmers to avoid congregating behind the blocks before or after races, in the warmup pool, or to cheer from the side of the pool.
- Provide hand washing stations and hand sanitizer.
- Sanitize common areas and surfaces frequently.
- Publish results online only to avoid crowds at results posted on-site.
- To eliminate the need for meetings that typically are held in-person (for officials, safety personal, open water safety briefings, etc.) publish information in advance and/or organize virtual meetings via Zoom.
- Avoid or minimize post-event socials and awards ceremonies.
- For larger events, consider splitting the event into sessions to minimize the number of attendees at the venue at any given time.
- If you become aware of COVID-19 exposure (i.e., an attendee tests positive shortly after the event and could have exposed other attendees), communicate to all attendees through email or other possible means the possible exposure times and locations so attendees may determine if quarantining and/or testing are needed. [Here are positive test protocol recommendations](#) from the [Aquatics Coalition](#).
- Pool Meets:
 - Provide plenty of time between heats and events to avoid crowding behind the blocks.
 - Limit the number of swimmers allowed in each warmup lane to allow for physical distancing. Encourage swimmers to be flexible with their warmup routines and considerate of fellow swimmers.
 - Relays may be held if ample space for distancing and all other COVID-19 mitigation efforts can remain in place. Using only every other lane is a good way to provide additional space for relay swimmers.

Event Directors (continued)

- Open Water Races:

- Avoid mass starts and use wave, time trial, or rolling starts instead to avoid crowding.
- Provide a receptacle for swimmers to discard masks as they enter the water and disposable masks for swimmers to wear as soon as they exit the water.

Officials and Timers

- The referee, starter, and stroke and turn officials should space out as much as feasible corresponding to various pool configurations.
- Sanitize any equipment before use (e.g., podium, microphone, etc.)
- Timers should keep ample space from the blocks at the start of the race and only move up to the pool's edge at the end of the race to stop their watch and/or push their button. Then they should move back to their original position.
- Consider using only one timer per lane.

COVID-19 Safety Plan Details (include additional pages as needed). Describe plans for each protocol as applicable for your area and venue.

Current applicable federal, state, local, and facility orders regarding size of gatherings, other COVID-19 protocols, etc. (include links where appropriate)
<p>The Upper Valley Aquatic Center continues to meet or exceed State of Vermont requirements for Health Clubs and sporting events. The facility requires all swim meet participants, workers, and spectators to wear masks within the facility. Swimmers must wear a mask to and from the block. All people entering the facility are required to complete a liability waiver and pass a temperature check.</p> <p>At the facilities request, all meet participants and attendees MUST be vaccinated against COVID-19.</p>
Venue cleaning protocols for before, during, and after the event
<p>Facility staff clean surfaces such as rest rooms, door handles, and ladders throughout the day. Seating areas in the competition pool area will be cleaned before and after the meet but not during the meet.</p>
Face-covering requirements and enforcement for unvaccinated attendees
<p>The facility requires all swim meet participants, workers, and spectators to wear masks within the facility regardless of vaccination status. Swimmers must wear a mask to and from the block.</p>
Modifications to registration and check-in area and process
<p>Participants will enter the facility using the side/employee entrance. Masks will be worn by all participants. If a line forms, attendees will be asked to social distance. The meet announcement will ask participants to follow facility entry location instructions in place the day of the meet. Meet management will also notify any participants that register in advance of any changes.</p>
Warm-up social distancing requirements and enforcement
<p>During warm-ups, swimmers will be asked to have no more than 5 people in a lane. UVAC staff and coaches will monitor. This has not been a problem in the past given there are ten lanes.</p>

Venue facilities that are available and off-limits to participants
Participants will be able to use the competition pool area, restrooms, and locker rooms. Splash park pool and fitness facilities will be off limits. The final decision about the availability of locker rooms and showers will be determined closer to the meet and shared with meet participants.
Swimmer requirements for races (entering and exiting the water)
Masks will be worn to the block. Swimmers will need to exit the pool at that block or ask someone to move their mask to where they can exit the pool (e.g., warm-down lane)
Other participant interaction modifications (awards, results, etc.)
No COVID-related issues regarding awards. Results are sent to all participants after the meet.
Post-event notification protocol, in the event that an attendee subsequently tests positive for COVID-19
Will follow State of Vermont guidelines for contact tracing in the event that an attendee subsequently tests positive. The facility will make the contact to the State Health Department for guidance. Meet management will contact participants if needed.
